Squirrel Tail Grass

## Example Product List

Xeranthemum annuumö

Echniops ö

Please contact me to discuss availability , any colour preferences you may have and pricing, if you would like to purchase flowers by the stems to make your own arrangements or for your craft projects.

#1 Illustrations are of the flowers dried, but all flower vary in colour, form and sizes after drying and available amounts vary depending on the flower and time of the year.

#2 Some flowers are dried on wired stems to improve workability after drying as some stems dry very poorly. Stems allow greater flexibility in arranging and working with some dried flowers, cost for these will be higher.
